I heartly concur in all movements which have for their object to repair the mischiefe arising from the violation of good faith in the repeat of the Missouri Compromise. There are but four weeks to the election, and in this brief space of time the practical work and tape the richest agricultural portion of the ion of the Slave Power, and securing the control of it for the uses of Freedom, is to be done. The results of the next four weeks' labor will be felt through the next four years. We have had large and enthusiastic meetings, and have been cheered by the accessions of large numbers from the Democratic ranks to the cause of Freedom and Fremont. But a great work remains to be done. We have a powerful, wellin this State. Look at the course already pursued. Renzeschtatives. Senators, Presidents, sawass, and learned men, at home and abroad, all united to do him homage. But no sooner was he nominated for the Presidency, than the organs of the Slave Democracy began their asing him of everything mean, and vile, and disremont with obloquy, by disgracing the

We have much to do in this city. It should be thoroughly canvassed by faithful men, and every man be exhorted to do his duty to save the government from becoming the instrument and paving for them in Valley Bank money onall coming generations. The New York Evening Post is credibly informed that a meeting of the friends of Be-1 the State stand thus: chauan was lately held in New York, which was attended by a leading member of the Pillmore State Committee, and by whom it was arranged that Fillmore's name was to be formally withdrawn about a fortuight before the election, in case his chances of carrying the election into the House seemed inconsiderable, and the friends of Mr. Fillmore were to vote for the Buchanan electoral ticket; in consideration whereof the Buchanap men were to vote for Erastus Brooks, the rabid Know Nothing editor of the Express, for Governor. The Pess adds: " The Know Nothing State Committee man to whom we have referred, has since gone South for the purpose of ascertaining Mr. Fillmore's chances of getting his name into the House, and of making arrangements in Southern States like thuse made here, in view of the contingeney to which we have aliuded."

Milwaukee & Hericen Balirend. This road is now open to Brandon, eight miles beyond Waupun, and the passenger trains commence running regularly to that point today. This makes 23 miles of road in operation. In five weeks more this road will be completed and in operation to Ripon, seven miles further, which will make 30 miles of road through the heart of the richest and most productive agricultural region of the State .--An immense amount of freight is now being shipped over this road, and when the cars reach Ripon, the centre of the great wheat-growing region, the expacity of the road will be fully

tasked. This company have gone forward quietly, but effectually in the construction of this road, and nave not resorted to the many expedients for raising the wind, so often resorted to, by railroad companies. They have been contented to base this enterprise on its real, self-evident merits, and no one familiar with the region of country through which it is to run, can doubt that this will be one of the best paying roads in Wisconsin. The cost of completing and equipping the road is not over \$23,000 per mile, and the receipts for freight and passengers must be

very large. We notice a sale of the bonds of this road in New York, at 70 and 72 cents, and a private offer of 70 cents for \$100,000 worth, which was and especially New England States are devoipromptly declined. Surely, the merits of this of society fitted for well bred gentlemen. The road cannot be well understood, or the bonds of this company would command a far higher price than this. 'The bonds of this company ought to be worth 90 cents. For the road is, to all intents and purposes, a great trunk road, and by its connection with the La Crosse road at Horicon, it is, for all practical uses, the same as if Milwaukee were moved up to Horlcon, or the road running 81 miles instead of 30 miles. It stretches its arms into the country-as soon as it is finished to Ripou-81 miles of redeeming this government from the domin. State. The month of December, will see a tide of freight and travel over the road, which few now dream of. And now is the time for those who wish to make investments in what is to be one of the best paying roads in the State, to purchase its bonds and subscribe to its stock.

The Muscogee, Alabama, Herald, another Buchanan organ, says:

Anormen Recruit -The following letter birth, who was elected last year as a Democrat | in that State than Buchanan. is published in the Neenah Conservator:

Madison, Sept. 6, 1856. A. G. Lagrange, Esq :

Dear Sir ! -- I have received a letter from Jas H Jones of Winchester, in which he says that some of the inhabitants of Neenah ar-doubtful whether I am going to support John C. Fremont or Buchanan. In relation to this,I will only say, as I have stated to you before, that I have decided to support Fremont, and also will do all that is possible in his favor. have written to you before and stated that if you could give me the nomination 1 should be willing to accept it, but by no means will I accept the nomination if you shall find it to be against the wishes of the inhabitants of our district. I have seen several of my countrymen in Dane County, and it looks favorable Yours, truly, for Fromont. JOHN ANUNSON.

The Unliformen Nomination. The Republican nominations which were made by the State Convention which assembled at Sacramento on the 27th August, form spicket of which any party might well be proud. Alexander Bell, of loss Angeles, who heads the elec toral ticket has been a resident of California for more than thirty years, and he is the most popular man among the native Californians that could have been found. His selection was a most judicious one. Judge Tracy, of Sau Francisco, the other elector at large, is also a most excellent selection. He is said to be the most eloquent political erator in the State. In regard to the Congressional ticket the Republi cans have been equally happy. Ira P. Rankin is a gentleman well known to our fellow-citixens. Some fifteen years since he was a mem-ber of the firm of Holbrook, Carter & Co., and afterwards of the firm of Carter & Rarkin intelligent merchant, a gentleman of spotles integrity as well as of fine abilities, he will do much to restore the good character of his adopted State, and to purify her fame, if he shell be selected in the place of the murderer and black-leg who now disgraces the State as its Representative in Congress. Tom Cox., of Plumue, a- he is familiarly called, is spoken of as a speaker of remarkable wit, honor, and power. A miner by profession, formerly a lending Democrat, but throughly disgusted with the outrages of his old party, his selection is univer-sally regarded as a great hit. The moral fitness of both candidates was most thoroughly scrutinized, and the result being satisfactory, the Convention made their nomination unanimous

This Road extends in a northwesterly direction ecross the State from Milwaukee on Lake Richagan, to La Crosse on the Mississippi River, crossing the Wisconsin River at Kilbourz City in Columbia County. The river at this point rane in a rocky bed, the banks of which are vertical rock blaffs to the height of 80 feet above the vater, at which point they are at the grade line of the Road, and shout 30s feet spert. It is dealrable so to construct the bridge at to give a wagon way below the Railroad track, passing the latter over the higher section of the bridge.

Astonishing Cure with only One Bottle.

Astemishing Cure with only One Bettle,

JOS, B. HALL & CO, say:

PRESQUE ISLE, Arcostock Co., Me., }

April 24, 1854.

We herewith send you a certificate of a cure performed by the use of only one bottle of the flerman flitters. We think Mr. Clark to be a man of verueity, and have no doubt of the truth of his story:

MEASES JOS, B. HALL & CO.,—Genitrmen: In answer to your inquities, I will state that my daughter aged If, has been complaining of a pain in her side for 6 or 7 years, and about the lat of January last, was taken down and contined to her hed. The pain in her side was very severe, beakless being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by Hooffand's German Bitters, I was induced to try it in her case, and sent to your store and purchased one bottle. She had taken it but a few slays when she becan to improve, and now after taking only one bottle, she is enjoying better health than she has for years. She feels no pain in her side or any part of her body, and attributes her care entirely to the German Bitters.

A new stimulus will not do; it must be a genuine, invigorating toole, and we are fully satisfied therebuttling in the whole catalogue of medicine that will compare with Bustetter's celebrated litters.
